

Call for Nominations: Governor's Forest Products Award

The State of Montana is seeking to recognize an outstanding person or entity for their work in promoting the use of Montana-sourced wood products. Nominations are open to any person, business or organization that has significantly advanced the utilization of Montana wood products, raised awareness of the importance of Montana wood products, or promoted the use of Montana wood products.

To nominate an individual, business, or organization: provide the requested nominee information and a narrative detailing qualifications, contributions or achievements you believe make this person or entity deserving of the Governor's Forest Products Award. In your narrative, be sure to address how the nominee has promoted Montana wood products, the nominee's role in supporting the forest dependent communities of Montana, and the nominee's commitment to sustainability in the forest products sector.

The Deadline for Nominations is September 11th, 2020. The selection committee will select the award recipient based on their positive impact on the use of Montana wood products, not the number of nominations received. The Governor's office will present the award at the Forestry Pioneers Celebration during Montana Forest Products Week, October 20, 2020.

Submit nominations via email with subject heading "Governor's Award" to Tom Perry, Montana Department of Natural Resources and Conservation at: tom.perry@mt.gov.
